The Kori Table Lamp was launched during the Stockholm Design Week in February 2023, it was designed by TAF Studio for artek. In Finnish, Kori means 'basket', a direct reference to the shape of the diffuser, which is designed to disperse the light in a way that ensures it suits various spaces. artek tested a wide range of shapes and sizes for the basket diffuser when crafting this lamp, the result is a lighting solution that emits a warm and direct ambient light, guaranteed to be glare free. This illumination provides you with both direct and indirect light.

artek Kori Table Lamp is a contemporary design, crafted from high quality materials. Another creative design by TAF Studio, the Kori combines practicality with atmospheric illumination, providing beautiful accent lighting. It is ideal as a reading light next to a bed or sofa; or in a hallway, on a shelf and even in your workspace.
