PRODUCT DESCRIPTION

Designer: Massimo Minale

Buster + Punch Forked Globe Ceiling Light

We currently have limited stock of this item in our [Clearance section](#).

A beautiful combination of hand blown glass and high quality metal, the Buster + Punch Forked Globe Ceiling Light was designed by founder Massimo Minale in 2022. This ceiling light is crafted from a combination of cast, machine and hand spun solid metals, with a globe of either opal or smoked hand blown glass - and of course it still features the iconic Buster + Punch knurling pattern and engraved signature.

The Forked Globe Ceiling Light coats your space in an ambient and even light emission, with a dimmable light bulb that allows you to personalise the intensity of the light output. Buster + Punch Forked Ceiling Light is available in a brass, gun metal or steel metal finish, offering a touch of industrial style to contemporary interiors. With a choice of finishes, glass type and size, the Forked can be easily personalised to suit your needs or personal style. This light is a spectacular addition to a wide range of spaces, install individually or group together in rows and clusters for a more dramatic effect.

A Buster + Punch Forked-specific dimmable Buster Bulb is included, but requires an LED compatible dimmer switch.

PRODUCT SPECIFICATION
