Aromas Del Campo Erto Chandelier

The Aromas Del Campo Erto Chandelier was designed by Pepe Fornas and is made up of a suspension rod connected to a ceiling support, with 5 arms that reach out into a star shape on a horizontal plane. Erto utilises disk-shaped shades, which are held in place by small brass plates, to explore the interplay of light and shadow. This adds rich texture and depth to your interior. The disks are available in an array of finishes and materials, depending on your interior style.

The contrast between the disks and the brass detailing results in an eye-catching lighting solution, which is enhanced by the the simplicity of the natural materials used. Aromas Erto Chandelier was designed with large contemporary interiors in mind, this luminaire makes a gorgeous addition to commercial spaces. It can be utilised in hotels, modern restaurants, reception areas and large residential spaces.

Note: This product is modifiable with other disc accessories that are available in multiple finishes and materials. Please contact our team for more information.
