PRODUCT DESCRIPTION

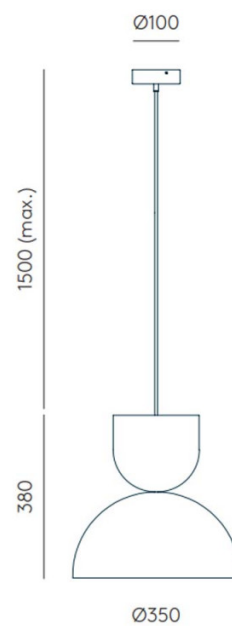

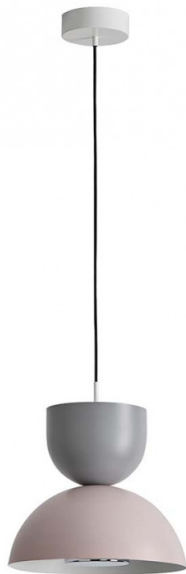

Designer: AC Studio

Aromas Del Campo Gamma LED Pendant

The Gamma LED Pendant Light was designed by AC Studio in 2019 as part of a wider collection for Spanish lighting manufacturer Aromas Del Campo. Gamma by Aromas is an original and versatile design, providing a unique lighting solution which can be installed in an array of settings, from bedrooms in residential homes to large commercial spaces. Gamma takes simplicity to a whole new level. Featuring two hemispherical metal shades, one which projects the light and one which adds an aesthetic aspect. With a range of colour options available for the shade, Aromas Gamma ensures finding your perfect lighting pieces even easier than ever before.

The LED light source of the Gamma is projected downwards by the hemispherical shade, resulting in a soft and glare free downlight. This makes the Aromas Gamma Pendant perfect for above dining areas and kitchens counters in your home. It also makes a beautiful pastel lighting solution in residential spaces; specifically in the hospitality sector. Gamma can be suspended individually or as part of a group, and with a wide range of ceramic finishes to choose from, you can create a display that will beautifully fit into your decor.
