PRODUCT DESCRIPTION

Designer: IDEO

Mooodi Pallana LED Suspension

Designed by IDEO, the Mooodi Pallana Suspension is a versatile lighting solution that 'support you in the balancing act that is daily life'. When designing Pallana, IDEO imagined basic shapes, that were mechanically joined, yet barely touching. Pallana's mechanically joined classic shapes create a dynamic and adaptable design, making it a playful task light. The six circular LED light sources can be adjusted to a position that suits your environment best. Angle them downwards for a more direct task light, or position them towards the ceiling to create an indirect illumination.

The Mooodi Pallana is a gorgeous addition to both residential and commercial settings. Spin the ring lights to assist you when working, eating, cooking, helping your children with homework, or whatever occasion. But they are most impactful when displayed above dining areas, in large lobbies and in shared workspaces or offices.

Mooodi Pallana LED Suspension is available in two muted colours, making it easy for them to match a wider range of interior styles and preferred colour palette. With the dim-to-warm functionality, you can control the colour temperature and light intensity simultaneously.

Compatible with the Mooodi wireless dimming switch, enabling you full control through a Bluetooth-enabled dimming device. Purchased separately. Please [contact us](#) for more information.

PRODUCT SPECIFICATION

Light Source: 58W, 3000K, 3800 Lumens

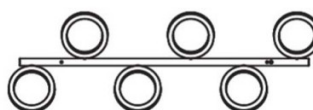

IP Code: 20

Dimming: Dimmable via Dali dimming systems / push to make switch dimming. Please consult your electrician, additional wiring may be required on site.
