Artemide Ixa LED Wall Light

We currently have limited stock of this item in our [Clearance section](#).

Inspired by Alexander Calder's sculptures, Artemide Ixa LED Wall Light interprets the idea of 'elegant balance' through precision engineering. Ixa brings light to where it is needed, and encourages the user to interact with the lamp. The Ixa LED Wall Light provides a diffuser which can freely rotate, only connected to the frame by a magnet, granting you the ability to project the light in any direction. Ixa offers an impressive 360° freedom of movement thanks to the sophisticated construction.

The Ixa LED Wall Light was developed by Foster & Partners for Artemide; it impresses with its clear, modern design whilst symbolising functional, productive and sustainable intelligence. Ixa Wall Light is ideal next to your sofa in the living room, in your kitchen, or as a work light in your office or studio. The minimalistic design blends into a wide range of interior styles.
