PRODUCT DESCRIPTION

Designer: Carlotta de Bevilacqua

Artemide Antarktikos LED Outdoor Light

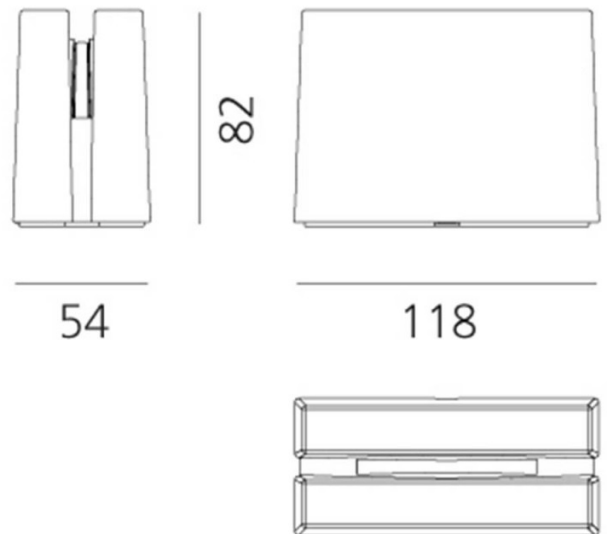

Artemide Antarktikos Outdoor Light is an architectural and innovative optic, it produces a single LED light source which draws a 360° light profile. This light can be used in a variation of ways, on your wall, ceiling or floor. Available as either a simple white light source or an RGB for a colourful touch, Antarktikos produces minimal light pollution with no glare, and is a perfect lighting system for large spaces.

This technical and decorative light is a beautiful way to show off your spaces and bring attention to specific areas to best effect. Thanks to its technical benefits and sleek design, this LED projector is ideal for illuminating buildings, gardens, windows and terraces, in residential or commercial spaces.

Driver supplied separately. Depending on the driver, the device can be dimmable or non-dimmable.
