PRODUCT DESCRIPTION

Designer: Lee Broom

Lee Broom Hail LED Pendant

The Lee Broom Hail Pendant was designed in 2022 and released as part of the brand's Divine Inspiration display at Milan Design Week 2023. The LED Pendant was inspired by the light cast through lancet windows in gothic churches and boasts a central aluminium structure and asymmetrically placed glass bulbs. Hail imitates sunlight, gently diffusing a warm ambient illumination, and resulting in a calming ambience that can be utilised in an array of settings.

Combining a modern design with gothic roots, the Hail Pendant is an elegant light, it is available with either three or six light sources and you can choose between two sizes (short or tall). The bulbs are well-balanced and overall this lighting solution takes up little space. Alternatively, you can connect multiple Hail Pendants to create unique customisable configurations. The possibilities are endless with this LED light.

PRODUCT SPECIFICATION

Light Source: **3 Light:** 6W, 2700K, 600 Lumens
6 Light: 12W, 2700K, 1200 Lumens

IP Code: 20

Dimming: Dimmable using trailing edge dimming.
