The a-emotional light Cambo LED Table was designed by Cenlitrosmetrocastrado, a design duo called Ricardo Tubío and Xabier Rilo. Their aim is to represent nature and the natural growth of plants through the design of the Cambo pendant light. The juxtaposition of the industrial metallic shade and the soft, natural beech wood creates a stunning tribute to the natural environment and the world we live in today. The striking beech wood is treated with a water-based varnish that allows the material to be shown in its most natural form. The mesh metallic shade also diffuses and conceals the integrated LED light source and strategically hides the technical details, therefore making the Arturo Alvarez Lamp appear to be lit naturally.
