PRODUCT DESCRIPTION

Mater Bowl Table - Waste Materials

This new Mater Bowl Table is an evolution of the original design, now crafted from waste materials to represent Mater's sustainability ethos. Each table is made from Matek®, which is an innovative technology that allows Mater to recycle fibre-based waste materials with recycled plastic waste to create a new material. The Mater Bowl Table is designed for disassembly, meaning that the design can be taken apart in order to be fully recycled.

This Scandinavian-style table is available in three different finishes and two materials; the Grey finish is crafted from wood waste whereas the Black and Light finishes are crafted from coffee waste. Each variation also features 20% recycled steel legs with a black powder-coated finish. Bowl can be utilised as a side table or coffee table in living spaces, as well as in bedrooms or social spaces.

PRODUCT SPECIFICATION

Dimensions: Ø46cm  
Height: 52cm
