A collaboration between award-winning Philippe Starck and Eugeni Quitllet, gave form to the Ghost Buster, a commode. The Ghost Buster is part of Starck's Ghost project where he redesigned classic 20th century furniture into transparent products with a contemporary twist. Starck was looking for a chest of drawers or a night table to use for himself, for years. After not finding what he was looking for, he decided to design one himself. And thus an evocative design, a tribute to all the chest of drawers he never found, he never saw. A transparent side table that is nonetheless necessary in everyday life.

The Ghost Buster is versatile designer furniture and can be used utilised as a nightstand, a side table, storage, bookcase the possibilities are endless. Suitable for all settings and decorations.
