Gubi Aspide LED Table Lamp

Gubi Aspide LED Table Lamp, designed by Gianfranco Frattini, was first developed in 1970 to be a highly adjustable table lamp. The Aspide lamp has a playful serpent-shaped body which was designed so it can be manually rotated 350° in both the body and the neck making this lamp practical for reading or angled away toward the wall to create a softer, ambient glow.

The Aspide table lamp comes in a chrome finish which beautifully gleams like a silver jewel. The unique lamp has a counterweight inside for stability and to prevent the light from falling over.
