Normann Copenhagen Bubba Pendant

Normann Copenhagen Bubba Pendant was designed by Yuchen Wu. The Bubba pendant was inspired by the irregular, organic form of soap bubble clusters. Yuchen has created this delicate design with a unique sculptural statement. When combined with the accompanying pendants, you can create a whole arrangement of drifting bubbles, tying your spaces together with a mesmerising playfulness.

The Bubba Pendant is a beautiful bubble-like pendant made out of etched opal glass which emits a soft warm glow. The opal finish of the sheer glass spreads the light evenly. Each bubble on the shade is unique therefore making a design that appears different from every angle. The Bubba collection includes 2 different size pendants, a ceiling light and a wall light.
