Resident Hex 1000 Pendant

Resident Hex 1000 Pendant is a member of the 'Geometric Family' that brings the beauty of mathematical accuracy into ingenious and practical feature lighting in both the home and commercial environments. The pendant is suspended from discreet slim line wires, with a high-quality LED light source that is elegantly diffused through recessed frosted acrylic.

Hex 1000 works well as a singular pendant, displayed in multiples or with other members of the geometric lighting family. Handmade in Auckland, New Zealand. The pendant is available in an aluminium, brass and black finish.
