PRODUCT DESCRIPTION

Designer: Arturo Alvarez

Arturo Alvarez Ura Table Lamp

Arturo Alvarez Ura Table Lamp has a natural form which has been created by delicate hand-folds. The lamp shade is made from painted stainless steel mesh which rests upon tripod-shaped stems, much like the floor lamp version. The exposed lid and base of the shade allow light to seep through creating a beautiful pattern of circles which fan across both the floor and ceiling.

Alvarez's collection of Ura's are made from painted stainless steel mesh. The family of lights include three different shape pendants, a floor lamp and a table lamp. The lamp cable is clear as standard but a black cable can be requested upon ordering. The lamp cable is clear as standard but a black cable can be requested upon ordering.
