PRODUCT DESCRIPTION

Davide Groppi Foil LED Wall/Ceiling Light

Ex-Display, in good condition. Boxed in non-original packaging.
1 x Available.

The Davide Groppi Foil LED Ceiling/Wall Light is a rectangular lighting solution with a metal white finish and slanted edges. The Foil LED emits light upwards and is an ideal choice if you want to highlight ceiling or wall details. When positioned high up on the wall so that you are viewing it from underneath, it gives the illusion that it is a very thin sheet of metal. Although it's there, you can't see the thickness. Visual magic. A luminaire that amazes with skill, so you only notice its two-dimensional effect.
