PRODUCT DESCRIPTION

Designer: Pablo Pardo

Pablo Nivel LED Portable Floor Lamp

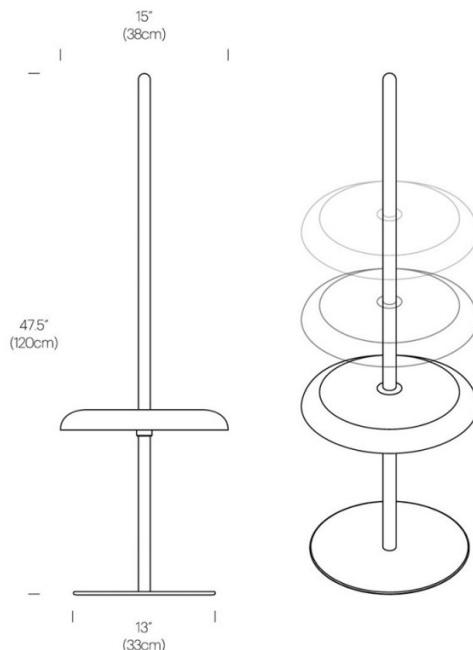

Combining functional lighting and furniture, the Pablo Nivel LED Floor Lamp is a height-adjustable portable lamp designed by Pablo Pardo. Pablo Nivel allows you to carry light to areas not serviced by power outlets that may be otherwise overlooked. The Nivel Floor Lamp consists of a solid wood post, available in either oak or walnut, secured to a powder-coated steel base; the wooden post holds up a circular powder-coated shade in White, Terracotta, Forest Green, Slate Blue, Espresso or Black. This lamp head is height adjustable, moving easily up and down the wooden post - and thanks to a friction collar, this head can be fastened securely at varying heights.

The Pablo Nivel LED Floor Lamp produces an ambient and glare-free downlight, which can be controlled through the integrated 3-step dimmer on the head. Choose between three settings: 100%, 40% or 5% brightness. Nivel Floor also allows you to add on a pedestal tray for more light and more utility. The tray module is also height adjustable with an independently activated light source and can be mixed or matched with selected upper shade colour and post to compliment any space. Trays are offered in powder-coated white, terra cotta, and black.
