PRODUCT DESCRIPTION

Designer: Nahtrang Studio

Axolight Paralela LED Wall Lamp

Axolight Paralela LED Wall Lamp was designed by Nahtrang Studio which was founded by Daniel Vila and Ester Pujol in Barcelona, Spain. The connecting linear wall lights are made from borosilicate glass and are joined together by Nylon PA12 connectors which use gravity to occupy space in an orderly manner. The inspiration for this wall light came from a search to shape light so that the light itself becomes a tangible decorative luminous element.

Axolight Paralela wall light is also available in both horizontal and vertical pendants, a table lamp and a floor lamp in different sizes and five colours: black, white, greige, earth red and pine green.
