PRODUCT DESCRIPTION

Designer: Arturo Alvarez

a-emotional light Aimei LED Pendant

The a-emotional light Aimei LED Pendant is created by Spanish designer Arturo Alvarez. Arturo is known for referencing nature in his work, and found inspiration for The Aimei Pendant in the ancestral universe; the ash wood representing a spine, while the ribs protect the beating heart within, where light and life resides.

The Aimei LED Pendant is the most sculptural piece from Alvarez, and its grand size and stature make it perfect for a commercial setting such as a restaurant or hotel foyer. The glass globe offers a soft, diffused light which illuminates some pieces of the wooden structure that surrounds it and casts others into shadow. The Aimei is available in ash wood and comes in one standard size.
