PRODUCT DESCRIPTION

Designer: Mario Bellini

Flos Chiara Floor Lamp

Flos Chiara Floor Lamp was designed by Mario Bellini in 1969. This indirect floor lamp is made from a chrome reflective stainless steel sheet which has been laser-cut and intentionally finished with an opaque white plastic film. The extruded black TPU runs along the profile of the body and works as a seal. A plastic white film has been folded and closed with hooks which have been formed from the sheet of metal directly. Chiara Floor Lamp has an internal base which is painted in a steel colour and attached to the body for stability and support for the bulb socket.

Flos Chiara Floor Lamp comes with a 190cm cable which has a dimmer switch attached to adjust the brightness. This floor lamp is incredibly unique and is an eye-catching piece whether the setting is commercial or residential. Chiara Floor Lamp is also available as a [table lamp version](#).

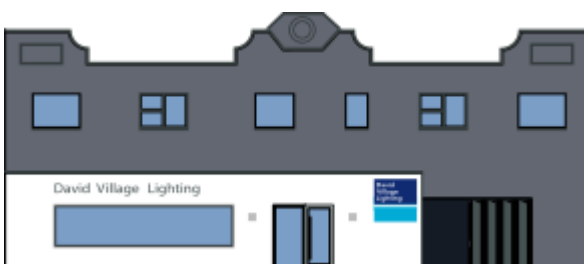

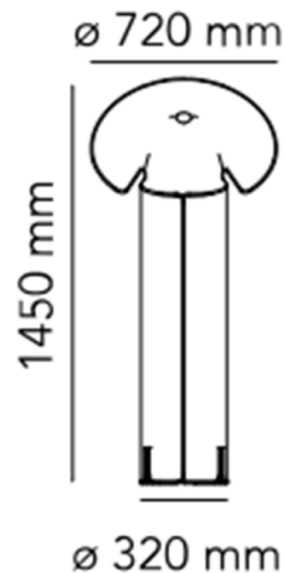

PRODUCT SPECIFICATION

Light Source: 1X Max 105W, E27 (Excluded)

IP Code: 20

Dimming: In line dimmer switch on cable

Dimensions: Height: 71cm
Cable Length: 190cm
