Lodes Hover LED Floor Lamp

Designed by YOY Design Studio, the Lodes Hover LED Floor Lamp is a minimalistic and unique lighting solution that can be used in both residential and commercial spaces. It consists of a lampshade that appears to be detached from the base, connected seamlessly by a single cable which runs through the stem. This design creates an illusion that the light source is almost weightless and floating in the air, like a balloon. All external technical functions have been carefully incorporated within the lamp's internal structure. The Hover Floor Lamp invites you to interact with the lamp, boasting an integrated dimmer on the upper end of the stem, allowing you to simply touch the top of the stem to modulate the intensity of the light with ease.

The Lodes Hover Floor Lamp utilises a strong metal structure and a white paper and polymer shade, this shade effectively diffuses the LEDs and produces a cosy and warm illumination. Hover suits different uses such as in a living room, dining room or bedroom in residential spaces. But it can also make an impact in public spaces including restaurants, bars, airport lounges, and a hotel room or lobby.

PRODUCT SPECIFICATION

- Light Source:** 6W, 2700K, 1000 Lumens
- IP Code:** 20
- Dimming:** Integrated dimmer on the product.
- Dimensions:** Shade: Ø34cm
Shade Height: 24cm
Height: 149.2cm
Base: Ø22cm
