PRODUCT DESCRIPTION

Designer: Mario Alessiani

Axolight Float LED Portable Floor Lamp

Designed by up-and-coming architect, Mario Alessiani, the Axolight Float LED Portable Floor Lamp is a modern lighting solution that can adapt to almost any interior. The silhouette consists of a long slender body that houses the iconic donut-shaped Float lamp head, with integrated LEDs it produces a powerful but glare-free downlight that illuminates the floor below. Not only does the Float Floor Lamp require no cables, allowing it to be placed in various settings and take up less room, but it also utilises an IP55 rating which means it can be used in exterior settings to illuminate your garden or terrace. Whether used in residential or commercial environments, this unique floor lamp offers a vast array of possibilities.

The Axolight Float Portable Floor Lamp also features an integrated 5-step touch dimmer on the lamp head, offering further personalisation and providing you with a way to create your desired ambience in your space. This variation of the Float comes with the cable, hook and shade provided with the standard [multifunctional lamp](#) as well as a 117cm high steel body and base for the floor lamp, in matching colours. The Float lights are available in a choice of 5 earthly colours; black, white, blue, concrete green and mauve dust. The black and concrete green lamps come with a black colour cable. The white, mauve dust and blue are paired with a white cable. Each shade has a plastic disk on the top surface of the shade. The disc is black for the black shade, white for the white, blue and mauve dust shades and grey for the concrete green.

This lamp offers nine hours of use, with a charging time of four hours via a standard USB cable. The rechargeable battery of the Float lamp is replaceable while it provides over 500 cycles of battery life, you can always replace the battery at the end of its life cycle.
