Normann Copenhagen Puff Table Lamp

The Normann Copenhagen Puff Table Lamp honours one of the oldest Asian traditions within lamp making and was designed for the brand by Saskia Huebner. The rice paper shades have been used for centuries and were originally displayed in the halls of temples. Huebner took a trip to Japan which sparked the inspiration for the Puff Lamp Collection. She saw endless variations of the rice paper shades to motivate her to create the perfect Puff shapes. This table lamp invites you to witness an accurate balance between sculptural playfulness and functional minimalism.

Puff Table Lamp provides a soft and gentle illumination to enhance your space whether that be in a residential or commercial environment. With a height of 28.5cm, the Puff Table Lamp can be displayed perfectly in the corner of a lounge area creating a cosy atmosphere. It's the shape and organic structure which gives this table lamp the versatility to suit all spaces while the rice paper shade allows for a muted glow as it gently shields the light source from being too bright and overexposed.
