PRODUCT DESCRIPTION

Designer: Ciszak Dalmas

Marset Ambrosia LED Wall Light

An elegant design by Ciszak Dalmas, the Marset Ambrosia LED Wall Light was inspired by classic strip lighting. It boasts a smooth-lined tubular structure that features an aluminium frame and a methacrylate diffuser. Ambrosia's warm, diffuse light fills the space, adding modern beauty and illuminating any contemporary interior with a calming glow.

The Marset Ambrosia is available in two lengths, 60 or 90cm, and it can be fitted either horizontally or vertically. This wall light also allows you to personalise the framing, offering the metal structure on either the left or right-hand side of the diffuser. Marset Ambrosia is a highly versatile wall light that can be utilised in both residential and commercial interiors, offering numerous aspects of personalisation and resulting in a lighting solution that best suits you and your needs.

The Marset Ambrosia LED Wall Light is available with Dali dimming, and the options of a colour temperature of 2700K and 2200K, allowing you to adjust the warmth of the illumination. The Ambrosia Wall Light is also available in a larger size with a width of 210cm. Please [contact us](#) for more information and pricing.
