PRODUCT DESCRIPTION

Designer: Gabetti & Isola

Axolight Bul-Bo LED Floor Lamp

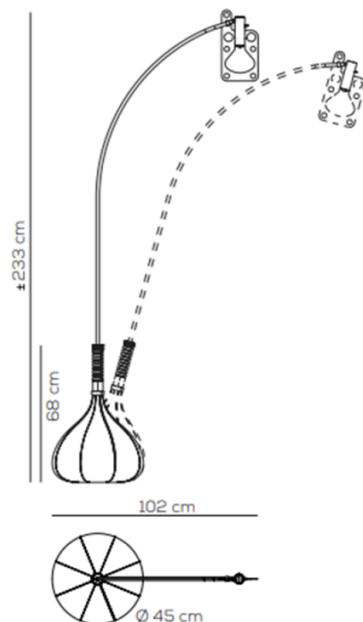

Axolight Bul-Bo LED Floor Lamp was designed by the Gabetti & Isola architectural design company. The Bul-Bo lamp is part of a collection that was created for the Olivetti Residential Center in Ivrea between 1968 and 1971. Andriano Olivetti, who designed the Olivetti Residential Center, was a renowned Italian engineer, entrepreneur and innovator who transformed shop-like operations into a modern factory. Gabetti & Isola's work is still strongly influenced by the enlightened mind of Andriano Olivetti, who passed a few years earlier. Bul-Bo Floor Lamp was created during the 1960s, a time marked by rebellion against conventions. It was designed to be a functional lamp that was also playful and ironic. Today, Axolight has brought back this iconic lamp with a contemporary touch while still maintaining respect for the original design.

Bul-Bo Floor Lamp has been thoughtfully designed to feature in both residential and commercial situations. Available with two colour options, the Bul-Bo displays either a black or an aluminium stem. The excentric design of this floor lamp is a testament to the careful attention to detail and commitment to quality that went into its creation. [Bul-Bo collection](#) also includes a wall and table lamp.

PRODUCT SPECIFICATION

- Light Source:** 15.3W, 3000K, 1973 Lumens
- IP Code:** 20
- Dimming:** In-line dimmer switch included on cable.
- Dimensions:** Base: Ø 45 cm
Height: 233 cm
Base Height: 68 cm
Weight: 28kg
