PRODUCT DESCRIPTION

Designer: Serge & Robert Cornelissen

Axolight Lik Plus LED Wall Light

Axolight Lik Plus LED Wall Light was created by design duo, Serge and Robert Cornelissen. Lik Plus has a contemporary and curved silhouette which elevates any setting. Providing bright and clear illumination, Lik Plus has an integrated light source with Dim To Warm technology which hides in the back of the structure and emits a warm light that spreads and reflects from the wall. Lik Plus has been designed to feature in both inside and outside environments thanks to its IP55 rating.

Lik Plus LED Wall Light is built from aluminium and sprayed in a warm wrinkled white colourway for a diverse aesthetic which can suit both commercial and residential settings. The Lik Plus Wall Light can be displayed independently or in a sequence across larger spaces. Lik Plus can also be purchased as an indoor-only version: [Axolight Lik LED Wall Light](#).

Please note, that this product is supplied with a remote driver which needs to be located within the vicinity of the product. Please consult your electrician.
