PRODUCT DESCRIPTION

Designer: Lambert & Fils

Lambert & Fils Dot Suspension

The Lambert & Fils Dot Suspension is a dramatic lighting solution, generating an even dispersion of light whilst immediately catching your eye with its geometric silhouette. The form combines sharp straight lines with softly curved spherical lamps, and the result is a graceful balance of lines and incandescent points. The brass structure holds 20 light sources, which can be easily dimmed to personalise the ambience of whichever room you decide to exhibit it in.

The Dot Suspension is a sophisticated luminaire that can adapt to almost any modern interior and is a beautiful addition to entrance halls, stairwells, dining spaces, kitchens and living areas. It can also make an impact in commercial interiors such as hotels, galleries, restaurants, and bars, where it can be displayed individually or in multiples.
