PRODUCT DESCRIPTION

Designer: Erwan Bouroullec

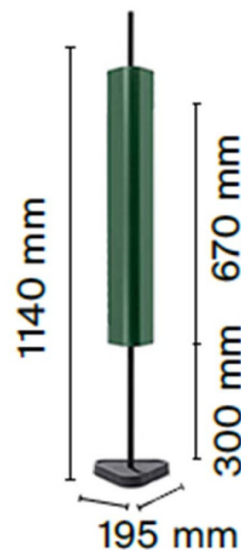

Flos Emi LED Table Lamp

The Flos Emi LED Table Lamp was designed by Erwan Bouroullec in 2024, created by grouping three light modules inside compact, linear extrusions that give the lamp a triangular shape which is reflected throughout its design. Its minimal and unique design is a testament to the careful attention to detail and commitment to quality that went into its creation. Thanks to modern LED technology, Emi emits an atmospheric glow in both upward and downward directions which can be controlled independently or together, making it an ideal lighting solution for any room in either residential or commercial establishments. The refined design and high-end finish of the Emi LED Table Lamp make it stand out and add a touch of elegance to any interior.

Emi is a dynamic visual feature that comes in four stunning colours and illuminates the surrounding space without directly revealing the light source. The colours include deep green, deep red, deep blue and off-white. The [Emi Collection](#) also includes a floor lamp version which can be matched alongside the table lamp.

PRODUCT SPECIFICATION

Light Source: 12.5W, 3000K, 1116 Lumens**IP Code:** 20**Dimming:** Integrated dimmer on product**Dimensions:** Base Length: 19.5cm
Height: 67cm
Stem: 30cm
Cable Length: 250cm
