## PRODUCT DESCRIPTION

**Designer:** Erwan Bouroullec

### Flos Emi LED Table Lamp

A 2024 addition to the brand's collection, the Flos Emi LED Table Lamp was designed by Erwan Bouroullec and consists of a triangular cylinder housing three LED modules. These modules are concealed within the structure, producing a reflected plight and downlight that can be easily controlled via an integrated dimmer. Appearing to be speared onto the slender central point, Emi is kept sturdy via a triangular base - ensuring full functionality whilst remaining true to it's design.

The minimalistic yet unique design comes in a range of neutral and earthy finishes, allowing Emi to adapt to a range of personal styles in almost any contemporary interior. The Emi LED Table Lamp by Flos softly illuminates the surrounding space and provides a calming ambience, it makes a statement no matter where it's displayed and cannot be used individually or alongside the [Flos Emi Floor Lamp](#).
