PRODUCT DESCRIPTION

Designer: BIG

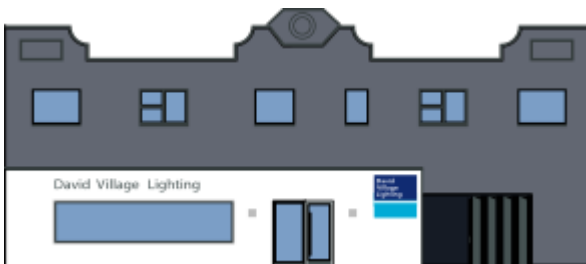

Artemide Architectural La Linea

The Artemide La Linea Light is an incredibly versatile luminaire, offering illumination for an assortment of spaces and allowing the user to install it in a variety of ways. The La Linea consist of a flexible silicone tube which houses an LED light source, this tubing is capable of freely twisting and turning in a multitude of ways in order for you to create a custom installation. This LED tubing can even be installed in overlapping patterns, weaving between each other to immediately catch the user's eye and generate what appears as a work of art on your ceiling, wall or floor.

This lighting solution can be purchased with a range of installation accessories, including ceiling mounts, wall mounts or suspension kits depending on your needs. It is also available with an IP20 or IP65 rating, allowing you the option of utilising the La Linea in an outdoor setting. Available in 2.5 and 5-meter lengths, this lighting installation offers exceptional lighting performance as well as a decorative addition to your environment.
