PRODUCT DESCRIPTION

Designer: Nordlux

Nordlux Ilgas LED Pendant

The Nordlux Ilgas Pendant is the definition of sleek Scandinavian design, utilising a slender frame, a neutral colour palette and high-quality natural materials. The Ilgas LED Pendant is functional but decorative, with a maximum drop height of 200cm that can be easily adjusted upon installation to fit the needs of your interior. This unobtrusive linear lighting solution is crafted from wood and is fitted with an integrated LED light source, which is projected onto the surface below - the result being a functional downlight that is perfect for above dining tables and kitchen islands.

The streamlined aesthetic of the Ilgas can be integrated into both classic and contemporary interiors and can be displayed individually or in multiples. Thanks to the dimmability of this pendant, you can easily generate a range of atmospheres - from a brighter functional illumination to a more atmospheric cosy glow for evenings.
