PRODUCT DESCRIPTION

Designer: Nordlux

Nordlux Bruna Bear Wall Light

The Nordlux Bruna Bear Wall Light is a comforting lighting solution, designed specifically for children's rooms. It features a mouth-blown glass diffuser, disguised as the bear's nose, which produces an ambient glow perfect for bedtime reading or as a relaxing nightlight to make your little ones feel safe. Due to the glass in this lamp being created through mouth-blown methods, each Bruna Bear lamp is unique, for example, air bubbles may appear in the glass and the thickness of the glass can also vary.

The Bruna lamp features an in-line on/off switch on the cable, allowing the lamp to be easily turned on and off during the night or for darker early mornings. The Nordlux Bruna Bear Wall Light promises a soft, dreamy illumination and a comforting presence through the night.

Please Note: This wall light features a cable and plug, so will need to be installed near a socket.
