PRODUCT DESCRIPTION

Designer: Tala Lighting

Tala Basalt Pendant

The Tala Basalt Pendant draws inspiration from the thousands of basalt columns found along the Giants Causeway in Northern Ireland. With a focus on its materials, this pendant light is crafted from cast brass or wax cast stainless steel with a mouth-blown borosilicate glass bulb. The abstract hexagonal shape of the pendant adds a playful yet elegant touch to your interior and the ambient light it provides will create a stunning atmosphere. Featuring optimised technology for smooth dimming, the Tala Basalt allows you to easily personalise the atmosphere of your room depending on your needs.

The Basalt Pendant is a beautiful lighting solution for modern residential and commercial spaces, a perfect accompaniment in bedrooms, kitchens, restaurants, hotels and above shop counters. The pendant can be displayed individually or in multiples, similarly for larger spaces that require a more dramatic installation, the Tala Basalt is available as a [Trio](#) or a [Cluster of Nine](#).
