PRODUCT DESCRIPTION

Designer: Pio & Tito Toso

Melete LED by Artemide

**BRAND NEW, OVERSTOCKED, ORIGINAL PACKAGING.
1 x White Available.**

Designed by the brothers Pio and Tito Toso tend to have a poetic sensation and a power that is meant to evoke. Their study on lighting and design is all about simplicity, one that is not trivial or frigid.

Melete is one of their designs, a single piece made of die-cast aluminium, and its shape is meant to interact with the interior architecture of the room. The internal part is carved and emits a warm light, both upwards and downwards. Melete wall light is available in a white finish but you can select the colour temperature, either 2700K or 3000K.
