PRODUCT DESCRIPTION

Designer: John Tree

HAY Cupola Desk Lamp

The HAY Cupola Desk Lamp explores the possibilities of providing optimal movement using minimal mechanisms. This tabletop lighting solution was designed by John Tree and offers an adjustable lamp head that rotates 360°, allowing you to direct the illumination as needed - for this reason, it is a perfect addition to desks and other workspaces where focused light is required. The circular base of the Cupola ensures the desk lamp remains sturdy whilst remaining true to its geometric form.

The minimalistic silhouette takes up little space and the sleek finish allows Cupola to adapt to a range of classic and contemporary spaces, crafted in durable aluminium, the Cupola Desk Lamp balances a raw, industrial expression with rounded forms. For environments that require a further space-saving technique, HAY also offers the Cupola light as a [Clip Lamp](#) or as a [Wall Light](#).
