PRODUCT DESCRIPTION

Designer: Seppo Koho

Secto Kumulo Pendant

Named after the cumulus cloud, the Secto Kumulo is designed by Seppo Koho following his travels in Lapland. Each unit is handmade in Finland using PEFC-certified form pressed birch. These pendants are self illuminating and project a soft glow both outwards and down through the cylindrical base. Thanks to the slated shade, the light from the pendant produces a show of shadows and light against the surrounding walls.

The Secto Kumulo creates a focal point in any space, whether displayed individually or as a cluster. The pendants are available in a variety of finishes, making them versatile to fit a range of personal styles.

Created with the environment in mind, the Kumulo is built to last from generation to generation.

Please note this pendant can also be supplied with Dali dimming. Please [contact us](#) for more information.

PRODUCT SPECIFICATION

Light Source: 1 x Max 7W GX53 (included)
