PRODUCT DESCRIPTION

Designer: Bent Karlby

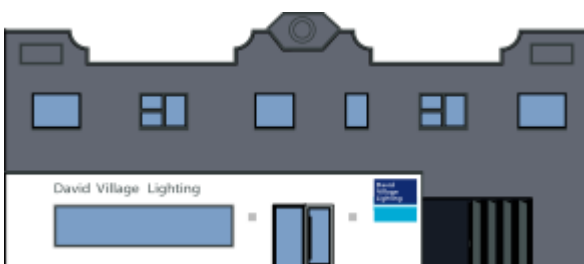

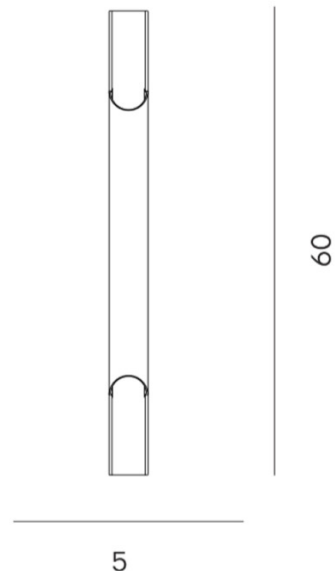

LYFA Pan 50 Wall Light

The LYFA Pan 50 Wall Light, a creation by celebrated Danish designer Bent Karlby, is both an architectural and ambient lighting solution. Featuring a dual-light source, this wall lamp casts an equal, soft directional light from both ends of its sleek tubular shade. The open tube design illuminates the aluminium surface, projecting a delicate glow against the wall and creating a visually captivating effect.

Available in a timeless anodised aluminium or elegant bronze finish, the Pan 50 Wall Light suits various interiors, from modern to minimalist. Its subtle ambient lighting and architectural form make it perfect for adding a refined accent to living rooms, corridors, or commercial spaces. A balance of functional light and sculptural presence, the Pan 50 epitomises Karlby's sophisticated aesthetic.
