Brokis Sfera LED Portable Lamp

The Brokis Sfera LED Portable Lamp is designed by Czech designer Lucie Koldova. Lucie's designs, which often focus on basic materials such as wood and glass, convey both minimalism and elegance. The Sfera Portable is an excellent example of this aesthetic. They are comprised of a delicate sphere of handblown glass set within a poured concrete base. The base is manufactured from HPC (high-performing concrete), and houses a USB-C charging connector as well as a sensitive touch dimmer. The Sfera Portable is fitted with an LED light source with diffuser and, with an IP rating of 44, is suitable for both indoor and outdoor use. The stainless steel hoop serves as a handle to easily move the light from one location to another.

Each lamp is made to order with different colour options for each section. The glass sphere is available in Smoke Grey, Smoke Brown, and Triplex Opal with either a glossy surface or acid-etched both side surface. The concrete base is available in a natural or terracotta finish while the metal detailing is available in brushed stainless steel or metal - black matte powder coating.

The technologies used to manufacture the Sfera Portable follow century-old tradition and experience from glassmakers. The precision crafting of handblown glass instils distinctive, enduring character and outstanding quality.

PRODUCT SPECIFICATION

Light Source: **PC1271:** 2.4W, 2700K, 310 Lumens
PC1273: 3W, 2700K, 390 Lumens

IP Code: 44

Dimming: Integrated dimmer on the product.

Dimensions: **PC1271:**
Width: 20.6cm
Height: 24.4cm

PC1273:
Width: 40cm
Height: 46.8cm
