PRODUCT DESCRIPTION

Designer: BIG

Artemide Stellar Nebula LED Pendant Light

**BRAND NEW, OVERSTOCKED, ORIGINAL PACKAGING.
1 x Dichroic Glass Available.**

The Stellar Nebula pendant was designed by the group BIG who sought to enhance artisan glass blowing to produce an industrial solution to uniqueness in lighting. The pendant light is created by blowing glass, an ancient technique that has been passed down for generations, allowing for a one-of-kind shape with every light that is made. The pendant is then finished with a cutting-edge dichroic process which makes the glass create gorgeous and magical colours depending on the light intensity.

The Stellar Nebula pendant lamp features an integrated LED light source at the top of the shade for long-lasting illumination. The pendant lamp can be used in a wide variety of settings and will provide a wondrous and stunning atmosphere wherever it is placed. Use alone, in rows or in clusters depending on the size of the space and function of the light.
