Inspired by movement translating in design the Suspence pendant light was designed by Gamfratesi in 2013. The pendant is created from pulling aluminium creating a rounded shade that has an elegant and classic silhouette. The top of the shade accentuates this pulling technique as it tapers into a little tip. The shade has an infinity diffuser fitted in the bottom which creates a glare-free soft glow that also creates an illusion of infinite depth.

The downward-directed light makes this pendant light great for putting over tables and surfaces and also works well as the main feature light of the room. Wonderful for both homes and commercial spaces, this light can be used in many different types of rooms.
