PRODUCT DESCRIPTION

Designer: Paolo Rizzatto

Nuura Rizzatto Cluster 6 Chandelier

The Nuura Rizzatto Cluster 6 Chandelier is a bold and striking lighting fixture designed by Paolo Rizzatto. This chandelier features six individual Rizzatto 32 pendants, each suspended from solid metal rods with a satin brass finish. The design incorporates mouth-blown opal glass shades, offering a soft, diffused glow that enhances the elegance and atmosphere of any space. The minimalist and organic shapes of the pendants add an artistic, sculptural quality, making it perfect for those looking to make a statement in their interiors.

Designed for use in larger residential and commercial spaces, the Rizzatto Cluster 6 Chandelier provides ample illumination while adding a decorative touch to rooms such as dining areas, living rooms, or reception halls. The adjustable cable length allows for flexible installation, enabling you to customise the chandelier to suit your ceiling height and design preferences. The soft accent created by the satin brass finish adds a touch of warmth, elevating the beauty of the mouth-blown opal glass.

As with other lights in the Rizzatto collection, this chandelier features dimmable lighting, allowing you to create the perfect atmosphere for any occasion. The Rizzatto Cluster 6 chandelier is a functional work of art, combining high-quality materials and craftsmanship with innovative design to produce a timeless statement piece that will illuminate any space with sophistication.
