PRODUCT DESCRIPTION

Designer: Jens Fager

Zero Compose Large Pendant with Glass Shade

The Zero Compose Large Suspension with Glass Shade makes a bold design statement while delivering functional illumination to larger interior settings. Designed by Jens Fager, this pendant features a generously sized shade in clear, green, grey, or matt-white glass, offering a gentle blend of diffused ambient and focused downlight. The precision-engineered aluminium fitting, available in white, black, or grey, pairs with a matching textile cable and your choice of opal diffuser for a soft, glare-free effect or a matt clear diffuser for crisper output.

This larger format is well-suited to open-plan kitchens, dining areas, lobbies, or hospitality environments where statement lighting and functionality must coexist. Hung individually or in linear sequences, the Compose Large Pendant adapts to various ceiling heights and layouts. With its strong graphic silhouette and high-quality materials, this pendant balances visual presence with practical light performance—ideal for contemporary interiors.
