PRODUCT DESCRIPTION

Designer: Christophe Pillet

KDLN Tripod Suspension Light

The KDLN Tripod suspension was designed by Christophe Pillet and is the perfect encounter between traditional and contemporary. The soft warm fabric shade is suspended elegantly from the ceiling with three transparent support wires. The purity of shapes and muted tones allow for a welcoming and soothing pendant light that creates a stunning downward glow. Ideal for above a dining table or as a centerpiece in a living space or hallway.

The fabric shade gives this design a tactile and raw appearance, adding another element to your space. The large Ø55cm can easily fill a large space or a room with high ceilings. However, hung low over a dining or living space can make a large area feel intimate and well-lit. By adding this modern design to your home, the Tripod suspension can work to elevate your home or office with its rounded and all-encompassing shade.
