PRODUCT DESCRIPTION

Designer: Louise Campbell

LC Shutters Pendant Light by Louis Poulsen

The LC Shutters pendant was designed by Louise Campbell and is a very unique and comforting light. The shade is made from 2 layers that are pressed and cut to produce a vintage pattern that is eye-catching and delicate. The shade is shaped into a beautiful bell silhouette, creating an even more elegant design. The light source is also concealed by an inner glass diffuser to create an even, soft glow.

The pendant emits a warm light that escapes from the top and bottom and through the pattern to create an overall illumination that is perfect for many different types of settings. Particularly good for hanging over tables, the LC Shutters pendant light can be used in homes and commercial settings, alone or in multiple.
