PRODUCT DESCRIPTION

Designer: Koray Özgen

Asteroid Pendant by Innermost

Designed by Koray Ozgen, the Innermost Asteroid Glass Pendant is a bold and innovative light fixture, originally conceived as a multi-surfaced vase. The Asteroid's unique faceted design features twenty-four irregular faces, creating a dynamic form that constantly changes as you move around it. This pendant emits a soft, diffused glow, adding an architectural element to any room.

The Asteroid is both elegant and adaptable, making it ideal for a variety of settings, from contemporary living rooms to industrial-themed spaces. When arranged in clusters, the Asteroid creates an impressive installation, with its light refracting beautifully off each geometric surface.
