PRODUCT DESCRIPTION

Designer: Arne Jacobsen

AJ 50 LED Outdoor Wall Light by Louis Poulsen

Originally designed in 1957 by Arne Jacobsen for the SAS Royal Hotel in Copenhagen, the Louis Poulsen AJ collection of wall, floor and table lamps now has iconic status. The AJ outdoor wall lamp is striking yet not imposing; it has a swivelling shade and sculptural design.

The AJ LED exterior wall light has a fixture head with a distinct, asymmetircal shape, which determines the light characteristics of the fixture. It is made from die cast aluminium, making it extremely hardy and weather resistant. The AJ 50 wall lamp is designed for outdoor use and is ideally placed by doors to illuminate porches and decks and is available in 3 lovely finishes, black, white or aluminium.
