PRODUCT DESCRIPTION

Designer: Héctor Serrano

a-emotional light V Floor Lamp

The V floor light by a-emotional light is a handmade caged design which encapsulates a glass diffuser, often likened to an alien spaceship. The designer of the V pendant, Héctor Serrano, uses cutting-edge technology of plastic injected polycarbonate to create a material which is delicate to the eye yet durable and strong.

Standing on three legs which join in the centre, the V floor light has a strong personality, making the impossible seem possible. Available in two sizes and colours its unique spatial shape is sure to add a touch of the extraordinary to any dining room, kitchen or bedroom.
