PRODUCT DESCRIPTION

Designer: Alex Fernández Camps & Gonzalo Milá

Bover Elipse Pendant Light

The Bover Elipse Indoor Pendant light was designed by Alex Fernandez Camps and Gonzalo Mila in 2011. This luminaire features a spherical diffuser which is available in two sizes, and is crafted from high quality Polyethylene, guaranteeing durability. It also makes the Elipse Pendant easy to maintain, specifically when it comes to cleaning.

The spherical diffuser not only provides a sleek and minimalistic design but it also results in a beautiful diffused light that is projected into your room. The light emission is ambient but also generous, you will not be sacrificing functionality for aesthetics - making the Elipse perfect for rooms where you need to provide a functional ambience such as hallways, kitchens and even lounge areas.

Canopy is available in white or satin nickel finish.
