PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Vibia Warm Pendant

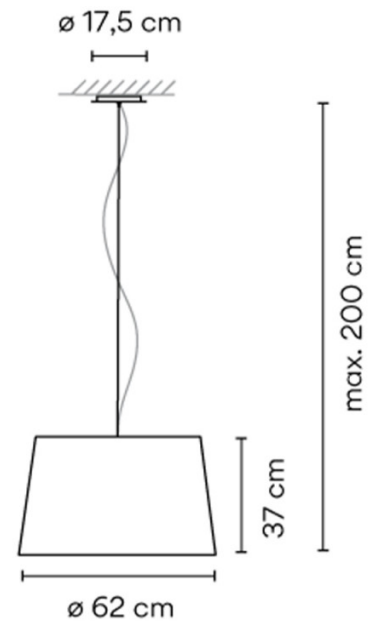

Designed by Ramos & Bassols, the Vibia Warm Pendant is the result of the design duo deciding to create a versatile and lightweight decorative lighting solution. Featuring a classic drum shade and a timeless silhouette, this suspension light not only looks stylish but also creates a cosy and intimate illumination. The light is projected downwards whilst also able to escape out of the top of the shade, thanks to a methacrylate diffuser the illumination is protected against any glare.

Vibia Warm boasts an air of elegance and can easily adapt to almost any modern or traditional interior. Thanks to the numerous finish options you can take your pick of various style choices, utilising a carefully chosen colour palette. This pendant is ideal for suspended above dining tables, coffee tables, in hallways, entryways or even bedrooms.

An oversized version of the Vibia Warm Pendant can be supplied. Please [contact us](#) for more information and pricing.
