PRODUCT DESCRIPTION

Designer: Joana Bover

Bover Wall Street Wall Light

The Bover Wall Street Wall Light is a timeless design by Joana Bover. It consists of a metal frame with a curved shade, hand wrapped in either cream or white ribbon. This wall light also offers three different size options, making it perfect for both residential and public spaces.

Due to the curved shade, the Bover Wall Street produces an ambient indirect light, avoiding any glare. The smaller sizes make beautiful additions to your home, acting as a cosy reading light or a mood light above your bedside table. It can also illuminate the hallways of your home without occupying too much space. The larger Wall Street is perfect in commercial spaces, especially in the hospitality sector; utilise it to cast a warm glow across your bar, restaurant, library or café.
